Jurisdiction

4. The CCES is an independent not-for-profit organization incorporated under the federal laws of Canada that promotes ethical conduct in all aspects of sport in the country. The CCES also maintains and implements the Canadian Anti-Doping Program (CADP), including providing anti-doping services to national Sport Organizations and their members.
5. As Canada's National Anti-Doping Organization, the CCES is compliant with the World Anti-Doping Code ("the Code") and its mandatory International Standards. The CCES has implemented the Code and the International Standards through the CADP, the domestic rules which govern this proceeding. The purpose of the Code and of the CADP is to protect the rights of athletes to fair competition.
6. The CADP was issued for adoption by Canadian Sport Organizations on October 26, 2020, to be operational on January 1, 2021. Canada Soccer adopted the CADP on October 29, 2020; therefore, the CADP applies to all members, registrants, license-holders and Participants of Canada Soccer.
7. The Athlete is a member of and participates in the activities of Forge FC a member club of the Canadian Premiere League (CPL). As a member organization of Canada Soccer, the CPL is subject to the CADP. By extension, as a member club of the CPL, Forge FC, and all its members, registrants license-holders and Participants are subject to the CADP. Therefore, as a Participant in Canada Soccer activities, the Athlete is subject to the CADP.

Doping Control

8. On April 13, 2024, the CCES conducted an In-Competition Sample collection session in Hamilton, ON. Testing was conducted on Canada Soccer athletes as part of the CCES's domestic test distribution plan, all pursuant to the CADP.
9. The Athlete was notified that he had been selected for Doping Control and, together with the

Doping Control Officer from the CCES, completed the Sample collection process. The Athlete's Sample code was 7224989.

10. On April 16, 2024, the Athlete's Sample was received for analysis by the INRS Centre Armand-Frappier Santé Biotechnologie ("the INRS"), a World Anti-Doping Agency (WADA) accredited laboratory in Laval, QC.

Results Management

11. The AAF was reported by the INRS on May 8, 2024. The Certificate of Analysis indicated the presence of Cannabis.
12. Cannabis is classified as a Specified Substance and as a Substance of Abuse on WADA's 2024 Prohibited List.
13. The CCES commenced an initial review into the Athlete's AAF and issued a notification of a potential ADRV on May 14, 2024.
14. On May 30, 2024, the Athlete accepted a voluntary Provisional Suspension and responded to the CCES's Notification letter with his explanation.
15. On June 17, 2024, the CCES formally issued a Notice of Charge asserting an ADRV against the Athlete for the presence and Use of a Prohibited Substance.
16. Having assessed all information provided by the Athlete, and WADA's Guidance Note for Anti-Doping Organizations regarding Substances of Abuse under the World Anti-Doping Code, the CCES proposed a three (3) month period of Ineligibility to the Athlete in accordance with CADP Rule 10.2.4.1. Further, the CCES indicated that the proposed three (3) month period of Ineligibility could be reduced to one (1) month if the Athlete completed a Substance of Abuse treatment program approved by the CCES.

Confirmation of Violation and Sanction

17. On June 20, 2024, the Athlete submitted a signed Waiver of Hearing form to the CCES, thereby waiving his right to a hearing, admitting the ADRV and accepting both the asserted violation and the proposed period of Ineligibility plus all other applicable Consequences in accordance with CADP Rule 8.4.1.
18. As the athlete was able to satisfy the requirements outlined in CADP Rule 10.2.4.1, the sanction for this violation was a one (1) month period of Ineligibility which commenced on May 30, 2024, and concluded on June 30, 2024.
19. The CCES now considers this case closed.
